

## A Picture from Alaska-- Three Millions in Gold Dust Aboard These Sleighs.

This picture shows one reason why Uncle Sam ought to open up our northwest American empire, Alaska, by building railroads. These sleighs are loaded with \$3,000,000 of gold from the Yukon river region, brought down in this fashion at an immense cost to the Copper River railroad, the 200-mile Guggenheim line, which connects with the coast.

One of the first projects proposed for Uncle Sam is to build a railroad from the south coast to the Yukon river via the Tanana valley. When that is completed, more miners will go digging in that region and the chances are that the Yukon will develop into one of the greatest gold producing sections in the world.

At present the total output of gold and all other products of the Tanana valley amounts to \$5,000,000 annually. The amount paid for hauling these products out and supplies in is \$2,500,000. Thus half of what the valley produces is paid out for transportation. It is believed that a government road would cut these costs to one-fourth the present rates.

## DEMOCRAT MAKES PLEA FOR TARIFF

Sen. Thornton Says He is Not False to Democratic Party But Claims Measure Would Ruin Sugar Growers.

WASHINGTON, Aug. 1.—Democrat of the senate who stand pledged to vote for the Underwood-Simmons tariff bill, listened Thursday to one of their number who has repudiated the administration measure because of the free sugar plank. Sen. Thornton of Louisiana in a vehement speech pictured the ruin that free sugar would bring to his state, denounced the policy of free sugar as undemocratic and characterized his party's action as a "betrayal" and a "shame."

"I am not false to principles of the democratic party," he said, "in refusing to follow it along the strange and devious pathway it is now pursuing with regard to the tariff on sugar. I am true to those principles, and it is the democratic party itself that is seeking to depart from them. I am no traitor to the democratic party because loyalty to my state forbids me to vote for this bill in its present form."

The attack from within the party ranks, the first that has been since general debate began, was followed by another from the republican side when Sen. Gronna of North Dakota assailed the measure from the standpoint of the farmers.

Nearly the entire time for discussion of the bill was taken up with the addresses and little progress was made in consideration of the schedules. The double result being that the vote of the democrats from their determination not to take up time in general debate. The democratic leaders still assert that they will content themselves with brief opposition to amendments as they are offered from day to day. Later Sen. Shively of Indiana plans to answer the arguments and criticisms of the minority.

Appeals of the manufacturers voiced in the senate several days for an understanding between the senate and the house as to the date when the rates on woolen manufactures are to be made effective have failed to bear fruit.

Sen. Simmons, chairman of the finance committee, announced when republican senators read petitions asking that something be done, that he would confer with Majority Leader Underwood of the house, with a view to bringing about an agreement. This he has done, the result being that the house intends to stand firmly behind the provisions that free raw wool and rate on woolens shall become operative immediately upon the passage of the bill.

The senate bill proposes that raw wool shall be free on Dec. 1, 1913, and that the reduction of rates on woolens shall become operative Jan. 1, 1914.

**CORNER STONE REMOVED**  
Stone From Old First M. E. Is Placed in New Building.

The corner stone used in the old First M. E. church was removed to the new building being erected on N. Main st. and was placed in the foundation of the structure Thursday. It was placed inside of the foundation wall and the engravings will show up from the inside. The opening at the foot of the pillar of the old church from which it was taken was filled in with new bricks.

**CASTRO IS BACK HOME**  
Reported That Former President Has Captured Town.

BOGOTA, Aug. 1.—Further reports were received here Thursday of the alleged activities of the adherents of Cipriano Castro, former president of Venezuela. It is said, but unconfirmed, that Castro is back in his own country and that his followers, exiled by the anti-Castro faction have invaded Venezuela from several points on the Colombian frontier.

From Willemstad came a report that the Castro people have seized the town of Coro. Another rumor is that the revolutionists made an unsuccessful attempt to take the town of Cristobal Colon.

## WILSON NOT SWAYED IN LEAST BY WILSON

President Lets It be Known That He is Not in Favor of Recognizing Present Mexican Government.

WASHINGTON, Aug. 1.—Pres. Wilson indicated Thursday to those who discussed the Mexican situation with him that he had not been swayed in the least by the arguments of Ambassador Henry Lane Wilson in favor of recognition of the Huerta government in Mexico. He conveyed that his analysis of conditions from official and unofficial reports and his judgment of what should be done had not been altered by the ambassador's statement.

The president is formulating a policy which he told his callers involves nothing that is not entirely friendly to Mexico. He has not yet announced what his program will be, but he is unalterably opposed to the recognition, under any circumstances, of the government set up by Provisional Pres. Huerta through the events in which Pres. Madero and Vice Pres. Suarez met their tragic deaths.

It developed Thursday that democrats in the senate were concurring in this view, and further discussion of Ambassador Wilson's statement before the senate foreign relations committee brought a general sentiment of opposition to the suggestion of the recognition of the Huerta government.

Ambassador Wilson planned to go to New York tomorrow for a brief visit, returning immediately to Washington. He said tonight he had been authorized by Secy. Bryan to deny that any leave of absence had been extended to him. The ambassador is without direct information as to whether Pres. Wilson has approved or rejected his recommendations on the Mexican situation. He also has not been instructed as to his future.

**INTER-STATE HEAD GIVES TESTIMONY**

E. A. Rinker Makes Interesting Statement—He Verifies Report—Says He Personally Investigated the Newspaper Claims Made by Local Doctors in Regard to Cures They Have Made.

Mr. E. A. Rinker, head of the Interstate Advertising Company of South Bend, Indiana, is one of the prominent men in his line of business in northern Indiana. He has been one of the most active advocates for, and honest publicity methods. Some time this spring Mr. Rinker by chance read an article telling of certain cures being made by the United Doctors, and with doubt in his mind set to investigating these statements. He was much surprised at finding all their testimonials were bona fide, and that the patients who gave them were strong in their unstinted praise of these specialists and their methods of treatment.

Having a peculiar growth on his side he decided to consult them and see what they would say in regard to his condition. He reports as follows: "During the early part of last winter I suffered with pain and considerable irritation in my right side. This condition continued until it began to give me considerable uneasiness and interfered with my work. I became somewhat nervous and irritable, and began to lose flesh. I had heard considerable of the United Doctors, and had talked with some of their patients, all of whom seemed well satisfied with the treatment they had received. So I decided to consult them regarding the trouble in my side. I called at their offices and the doctor in charge gave me a rigid examination, and told me I was suffering with a tumorous growth in the right side. After the doctor went into the

details of my case and explained how such a growth could cause my troubles, and assured me that he could safely and permanently remove the same, I decided to place myself in his care. I must say that under his line of treatment the growth in my side speedily disappeared, the irritation ceased, I began to gain flesh and all of my nervous symptoms subsided. I am feeling as well and strong as ever today, and feel confident that the relief afforded me is permanent. It is gratifying to me to make this public statement, as I have come to regard the United Doctors very highly, not only for their ability as scientific men of medicine, but as men of moral worth and courage, who are striving conscientiously to build their business on a foundation of truth and veracity. Believing this I feel no hesitancy in recommending their services to any of my friends who may be in need of them.

A. E. RINKER, 325 S. William St.  
Letters from such men as Mr. Rinker will no doubt cause many who are suffering from long-standing, deep-seated diseases, to consult these master medical specialists who have their South Bend institute located on the second floor of the Toepf building, on South Main street, opposite the postoffice.

The physicians in charge will give all callers their complete scientific examination and consultation free of charge, and will frankly tell you whether or not they can benefit your case. They refuse to waste your money and their time if your case is beyond relief. They have cured many cases after other doctors had given up. It may be your case is one that will respond to United Treatment, even though ordinary doctors have failed.

**WOULD MAKE DRUNKS PAY THEIR WAY THROUGH**  
Proposed to Force Men to Work While They Are Serving Sentences.

WASHINGTON, Aug. 1.—Inebriates and users of drugs, upon being convicted hereafter will be sent to a federal hospital and forced to work. The money earned will go in part to the support of the institution and half of the amount remaining will be paid over to those dependent upon the prisoners.

This, in effect, is the recommendation of the commissioners of the District of Columbia which was sent to congress Thursday as an amendment to a bill on the subject already introduced by Sen. Smith of Maryland. The limit of sentence under the proposed law would be two years.
